

## Year in Review: The Best of 2017 Fast Fact Fridays

As you know 2017 was an extremely busy year with renewed focus on Documentation quality by government contractors, outside auditors and clients in addition to our ongoing focus on Quality care and documentation.

The goal of Fast Fact Fridays (FFF) is to provide brief, targeted clinical information that is pertinent to our clinicians. Although we are hopeful that the FFF are always shared and reviewed some content may be more applicable than others. We've pulled out a few of the FFF provided in 2017 that we feel focus on pertinent information that is applicable to all of our clinicians. If you have not reviewed these documents, please take the time to do so. Historical FFF's are located on Redilearning and also on KNECT under Kindred Rehabilitation>Clinical Services>Skilled Nursing>Fast Fact Fridays.

- 1/27/2017 – Progress Notes: Ensuring Skilled Service Is Documented
